DETAILED ACTION

1. This action is responsive to the amendments filed February 21, 2008.
2. The 35 USC section 101 rejection over claims 13-18, 20-22, 24-26, and 28-33 is withdrawn in view of Applicant's amendments.
3. Claims 1, 3-5, 7-18, 20-22, 24-26, and 28-38 have been examined, and all remained pending claims now are being allowed (renumbered 1-33).

Examiner's Statement of Reasons for Allowance

4. As Applicants pointed out in the Remarks, the prior art of record Bogle fails to disclose or even suggest at least claimed limitations "an application to be debugged is loaded in an application process, that a hosting process is created to be separate from the application process and not based on the application to be debugged, that a debugger is attached to the hosting process prior to invoking the debugger or receiving a request to debug, and the attached debugger is caused to enter into a hosting process mode where the attached debugger is to debug the application as loaded from the application process into the hosting process, that upon receiving such a request to debug the application, the application is loaded from the application process into the hosting process, and that the debugger is invoked with respect to the hosting process and not the application process", as recited in claim 1 and in such manners in independent claims 13, 22, and 34 (Remarks, pp. 10-12).

These claimed limitations are not present in the prior art of and made of record and would not have been obvious, thus all pending claims 1, 3-5, 7-18, 20-22, 24-26, 28-38 are allowed (renumbered as 1-33).
